

In the month of June we will be offering a series of Fireside Chats to give everyone a chance to catch up on the latest information on the option of a merger between Redwood and Bayside. These Fireside Chats will give you an opportunity to ask questions and talk about what you think of this idea in a comfortable group setting.

We are approaching this in a couple of different ways. We have a lot of people volunteering in ministries all over the church. We also have several people in small groups or community groups. In order to make this as efficient as we can, the primary Fireside Chat we would like you to attend is either with your ministry team, your small group, or your community group. If you cannot make it to one of those meetings, or if you are not a part of any of those options, we are also scheduling a couple of general group chats, available to anyone. Some of the specific groups have limited numbers as we are trying to keep the Fireside Chats small in order to better facilitate discussion.

For whichever group chat you join, you will need to RSVP. You can do that two ways. First, if you are a part of a minis

try team, community group, small group, etc., please email your leader with your RSVP. If you would like to join a general group chat, then please either send an email to "**firesidechat@redwoodcovenant.org**". and state which general group chat you would like to join and how many will be coming or sign up for a general group chat at the Hub in the Atrium on Sunday morning. All Fireside chats will take place at the church, unless otherside noted.

Here is the calendar for the Fireside Chats:
